The McMaster Institute for Music and the Mind brings the arts and sciences together in its unique integrated concert and lecture series. Dr. Ron Hoy is one of the world's foremost experts on animal communication and his scientific work has appeared in the most prestigious journals. Ron's work has also been featured on science shows around the world, including the BBC's National Geographic and PBS's Scientific American Frontiers with Alan Alda. Ron is passionately interested in music, particularly music that is inspired by bird-song. Dr. Laurel Trainor is the director of the McMaster Institute for Music and the Mind, and her work on musical processing in infants and young children is known around the world. Laurel is also a flutist and principal flute of Symphony Hamilton.
